Westpro Milk Powder

What is Westpro Whole Milk Powder?

Westpro Whole Milk Powder is a dehydrated form of whole milk, retaining all the essential nutrients and creamy richness of fresh milk. It is produced through a meticulous pasteurizing, evaporating, and spray-drying process, ensuring that the final product is both high-quality and shelf-stable. This powder is often used in baking, cooking, and beverage preparation, providing a convenient and consistent dairy option.

This whole milk powder is made from 100% whole milk. It is available in 25 kg bags, with 64 bags per pallet. The packaging consists of a two-ply Kraft bag with an inner polyethylene liner. Each package is printed with an ID code, manufacturing date, and expiry date, with no staples or metal fasteners used.

Westland Milk Products certifies that this product is made using milk sourced from New Zealand dairy cows, which are free from preservatives, antioxidants, and food additives. It is also free from rBST, which is not approved for use in dairy cows by the New Zealand Food Safety Authority, and contains no genetically modified organisms or any plant or animal products.

Strict quality control procedures are enforced throughout the manufacturing process. The production environment is regularly monitored and controlled, with the final product undergoing sampling and testing for chemical and microbial parameters using internationally recognized procedures in an ISO 17025-certified laboratory. Precautions are taken during storage and shipment to maintain product quality. Each package is identified for traceability, and the manufacturing premises operate under a Risk Management Programme, ensuring the highest standards of quality and safety.

Uses of Westpro Whole Milk Powder

Westpro Whole Milk Powder is a medium-heat powder crafted from fresh, pasteurized whole milk, renowned for its excellent dispersibility and flowability. This product is perfect for use in various food, beverage, and nutritional applications. As it contains milk, it is important to note the allergen information.

Westland Milk Products ensures that Westpro Whole Milk Powder is manufactured in compliance with Halal and Kosher standards and under Halal and Kosher conditions. The product has a shelf life of 24 months when stored properly. To maintain its quality, it should be stored in a cool, dry, and well-ventilated area, free from odors, and away from direct contact with floors or walls.
